

Authentic Leader

Executive Leadership Development for a Competitive Edge

Authentic Leader™ workshop is a 2-3 day session intended primarily for senior leaders and/or intact senior-level teams and.

It offers a truly “deep dive” experience. Participants gain a powerful new awareness of the strengths, limitations and consequences of their current habits of thought. When an intact team goes through this program together, members accelerate the growth of *both their individual and their collective effectiveness.*

Authentic Leader brings alive the feedback from your *Leadership Circle Profile™* 360° assessment in a powerful way and converts these data and comments into deeper understanding of how to generate higher outcomes from your organization and team.

It can be selectively inserted into a customized version of *Leadership System™*, our integrated leadership development program for top leaders and senior managers.

What happens in the program

Through a combination of simulations, interactions, group discussions and personal reflection, participants...

- Practice skills around authentic, courageous conversations.
- Build high levels of trust and alignment within their team
- Clarify their personal purpose and their vision for the part of the organization they lead.
- Develop deeper level of commitment to the goals of the enterprise in the face of system resistance to bold actions and necessary change.
- Accept accountability for the ways in which they embody the current organizational culture and thus impede cultural change.

A sampling of topics

- The leader’s dilemma: purpose & vision vs. risk & fear
- Vision: creating outcomes that matter
- Our limiting assumptions and beliefs—breaking through them for greater results
- How we create and sustain our organization’s culture
- Using creative tension to generate stretch results
- Engaging in courageous conversations
- Reflecting on my 360° Profile data – surprises, confirmations, questions, concerns, themes & patterns
- My own development priorities, going forward as a leader

The outcome

Armed with a new and deeper awareness of what’s possible for them to create, participants commit to making courageous changes in how they lead that will **shift the culture** to one of sustainable innovation, employee engagement, and superior organizational results.

This program works to enhance the leader’s so-called “inner game” that drives the “outer game,” the leader’s behaviors and decisions that others experience and respond to every day. This is why changes leaders make as a result of an *Authentic Leader* program tend to be permanent. Their effectiveness is raised for the rest of their career.
